

POLYTECHNIC UNIVERSITY OF TIRANA
FACULTY OF MECHANICAL ENGINEERING

2nd International Conference: “Engineering and Entrepreneurship”, (ICEE 2019), Tirana, Albania, 10,11 Oct 2019.

Dear Colleagues and Partners,

We are pleased to invite you to the **2nd International Conference “Engineering and Entrepreneurship” 2019 (ICEE2019)**, organized by Mechanical Engineering Faculty, Polytechnic University of Tirana (PUT), in collaboration with Electrical Engineering Faculty, Polytechnic University of Tirana (PUT), and Mechanical Engineering Faculty, University of Prishtina, which will be held in Tirana, Albania, on **10, 11 Oct, 2019**.

2nd International Conference “Engineering and Entrepreneurship”, aims to bring together innovative academics, researchers, engineers, industrial experts, to present new research results and to exchange ideas and experiences in the fields of Management and Production, Textile, Construction, Energetics, Electrical Engineering, etc. It also will foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in improving related techniques.

All papers from Engineering, Production, Management, Management of Information Systems, Economics fields, Electrical Engineering, are highly encouraged.

Conference and paper language will be English.

All the full papers accepted will be published in the Proceedings Book.

We are also in the process of discussion with Springer magazine and will let you know if we can publish the papers also in one of their magazines under their conditions.

You can send your abstract and full paper via mail: ICEE2019@upt.al; (optional address: vpriifti@fim.edu.al).

Please send your abstract/full paper, formatted as the template attached.

Deadlines:

-Abstract submission: 15 April 2019

-Abstract confirmation of acceptance: 30 April 2019

-Full Paper submission: 31 July 2019

-Regular Registration and Payment: 2 September 2019

(Fee for one author is 50€, and also 50€ for each person that want to attend the conference and have the conference kit that includes certificates and the Conference Book of Proceedings)

Relevant topics of the conference include but are not limited to:

1. Energetics

Advanced Energetics technologies

Environmental risk and ecological scarcities

Energy Resource efficiency

Global warming and emissions

Clean & Renewable Energies

Economic development, global warming and environmental protections

2. Constructions

Numerical methods for data manipulation

Construction science and technology

Transport Systems

3. Transport issues and traffic safety

Modelling of Transport Systems

Intelligent transport

Traffic management

Safety

4. Textile

Garment manufacturing
Textile Testing and quality control
Textile Processing
Developments in Textile Machinery
Ecology and Environment in Textile Production
Fibre physics and Textile Mechanics
Finishing, Dyeing and Treatment
Modelling and Simulations
Smart and Interactive Textiles
Supply Chain Management and Logistics
Technical and Protective Textiles
Textile Design and Fashion

5. Management & Production

5.1 Production

Logistic and supply chain management
Technology management
Materials science and application
Total quality management
Internationalization of SMEs

5.2 Management

Knowledge Management
Innovation Management
Financial Management
Enterprise risk management
Marketing research and strategy
Industrial marketing
Project management
Engineering project management
Management challenges in nowadays
Operational research

6. Management of Information Systems

Information technology infrastructure
Big Data
Internet of Things
Management enterprise network
System application in digital age

7. Electrical Engineering

Automation and Intelligent Control Systems
Modelling, Simulation and Architecture of electrical systems and networks
Mechatronics Systems
Power Electronics, Sensors, Electric Machines and Motor Drives; Digital Automation
Smart Energy Regulation and Policy
Smart Grid Design and Security
Energy Management Strategies and Efficient Networks and Systems
Distributed Generation
Shifting trends in power generation, transmission and distribution technologies
Today power for a sustainable future - Renewable Energy Sources
Electric and Electromagnetic applications
Standards and Codes
Electrical Safety
Engineering Education

8. Other fields

For further details, feel free to contact us at ICEE2019@upt.al; (optional address: vpriifti@fim.edu.al)

Looking forward meeting you in Tirana!

Best Regards,

Conference Staff, ICEE 2019.
